Change @ CCHS:

-

Teaching and learning:

- Art HW deadlines –9S- 1 week for art HW isn't enough, alongside HW from other subjects. Maybe 2 weeks should be given? A 2-page spread in a week, is too much to do in a short period- (but it is preparation for actual GCSEs.) Talk to Mr Harvey, and other subject teachers about extensions being granted.
- Extension granting in other subjects -9S- With valid reasons teachers aren't complying with extensions. Always give as much advanced notice as you can- email, teams message. Teachers also have limited time to mark etc... If you know you won't be able to do it when they set the HW, Let them know, they will most likely help you!! Do as much as you can it the target time, don't spend more time, just to finish if you don't have the time- talk to subject teacher.
- YR10- No other previous assessments apart from mocks, in English- maybe unfair judgment if they don't do as well in mocks. No essays have been written- just a podcast. Fear that there is a lack of practice?
- GCSE subject options-9S- Economics and Business introduction for GCSEs. We are a grammar school, so some subjects may not be deemed as academically vigorous enough in comparison to other subjects.
- DT club for year 7s- not enough space and funding.
- Revision tips from the teacher before the test-9S- Not enough revision being done, and students are afraid that they don't know how to revise efficiently. Could be done in general for all subjects- in form or RTP, explore different

techniques. Email Mr Selby. An assembly happens at the end of yr9, to help revision. Checklists are helpful, for each subject...talk to subjects leads.

- Bon point-8A- Star system is new in German, good addition, however in the older year groups they are hardly used. Could be motivating. However, they don't really have much significance, in the long run.
- Space and laptops/computers- 8A- Large classes in V7 don't fit, laptops are slow and take the whole lesson to get started. Tell students beforehand if they need electronics in the lesson, they can bring their own. Charge- plugging in laptops!!
- German Packs vocab-8A.
- Teams HW-8A- Every HW should be uploaded to teams, to be able to keep track and be more organised. They have their planners.
- Changing time in PE-8H- not enough time to change in PE. Swimming should be done in the summer rather than the winter. Double period for swimming should be introduced, so that there is enough time, to swim and change?
- Study support sessions for more subjects-8S- For more subjects, not enough time to fit it into school timetable. Some students are struggling a lot in particular subjects, talk directly to teachers, for additional help and resources.

#### Enrichment

- Increase in field trips-8S - Computer science trips.

#### PA

- Father's Day sale-9H- talk to PA prefects (Nia and Catherine).

#### Premises and repairs

- Room changes-8A-Tutors should read out room changes, at the beginning of the day.
- Water cups at all fountains- talk to Mrs Mulgrew, encourage use of reusable bottles.
- Lack of space in art- talk to site team.
- Flags at 5m mark in school pools.
- Art room lift should be fixed.

#### AOB

- House music and drama- return of house show talk to Mr Selby
- Canteen- talk to Mrs Mulgrew, price labels should be added to food, ordering lunch online like during covid time should be reintroduced. Food waste is increasing- so everyone should order online.
